

Data Use Policy: Living Planet Index

Introduction

This policy provides the terms of use for the data available from the Living Planet Database ('Data', and collectively 'Dataset') which is managed by the Living Planet Index ('LPI') team at the Zoological Society of London ('ZSL') and WWF International ('WWF'). Potential users must agree to these terms of use prior to accessing the Data.

Terms of use

1. The Data are supplied for conservation purposes, scientific analysis or research only.
2. The recipient of the Data (or user) will provide a full and appropriate acknowledgement and citation in any materials or publications derived in part or in whole from the Data. The preferred citation format, changing years and date accordingly, is: "ZSL/WWF 2026. Living Planet Database 2026.1 <www.livingplanetindex.org/data_portal>. Downloaded on MM/DD/YYYY". For any publications making substantial use of the Data, ZSL and WWF welcome the opportunity for co-authorship, collaboration and comment prior to publication. Expressions of interest can be sent to LivingPlanetIndex@ioz.ac.uk. For an overview of the team's main research topics, please refer to the relevant page on the LPI website: <https://www.livingplanetindex.org/research>.

3. Reproduction of the Data or products derived from it, either whole or in part, for financial gain is strictly prohibited.

However, reproduction of the published LPI trends (e.g. the global, regional or system trends) is permitted under creative commons CC BY-SA 4.0 license (<https://creativecommons.org/licenses/by-sa/4.0/>). These results files can be downloaded from https://www.livingplanetindex.org/latest_results.

4. The user will not pass any Data on to third parties and will direct all requests for use of the Data back to LivingPlanetIndex@ioz.ac.uk.
5. The user will not publish the Data in their original format, either whole or in part, on a website, FTP site, CD, memory stick or any other media. The user should provide a link to the original Data source location on the LPI website where appropriate.
6. The user may only pass on datasets derived from the Data ("Derived Data") if the Derived Data are supplied with these same terms of use.

7. Use of these Data does not constitute endorsement by ZSL or WWF of any derived products, reports or analyses. ZSL and WWF logos must not be used on any derived products, reports or analyses, or supporting materials, without written permission.
8. ZSL and WWF reserve the right to comment on the accuracy or representation of the Data in the material produced by a user.
9. A copy of all products using IData will be sent electronically to LivingPlanetIndex@ioz.ac.uk or free of charge to the LPI team at the address below.

Disclaimer

ZSL and WWF make no warranties or representations, whether express or implied, regarding the use of the material appearing in the Living Planet Database with regard to their correctness, reliability, accuracy, or otherwise. The material and geographic designations in this Dataset do not imply any opinion whatsoever on the part of ZSL or WWF regarding the legal status of any country, territory or area, nor concerning the delimitation of its frontiers or boundaries. Neither ZSL, WWF, nor their affiliated or related entities or its content providers shall be responsible or liable to any person, firm or corporation for any loss, damage, injury, claim or liability of any kind or character based on or resulting from any information contained in the Dataset. ZSL and WWF may update or make changes to the Data available at any time without notice; however, ZSL and WWF make no commitment to update the information contained therein.

Errors and omissions

ZSL and WWF strive to maintain accurate and up-to-date Data. However, if errors or omissions are identified, the user should notify ZSL and WWF using the details below so that they can be corrected in future releases of the Data.
